Intro: C/G - Am - Em - Fsus

Verse 1:

C/G
Baby,

Am Em
It's been a long time coming,

Fsus C/G
Such a long, long time.

Am Em
And I can't stop running,

Fsus C/G
Such a long, long time.

Am Em
Can you hear my heart beating?

Fsus C/G
Can you hear that sound,

Am Em
Cause I can't help thinking,

Fsus C/G
And I won't stop now

Chorus:

Fsus
And then I looked up at the sun,

C/G
And I could see,

Am Fsus
Oh, the way that gravity pulls on you and me,

Fsus
And then I looked up at the sky,

C/G
And saw the sun,

Am Fsus
And the way that gravity pushes on everyone,

Fsus
On everyone,

Verse 2:

C/G
Baby,

When your wheels stop turning

And you feel let down

And it seems like troubles

have come all around

I can hear your heart beating,

I can hear that sound,

but I can't help thinking.

And I won't look now.

Chorus:

And then I looked up at the sun,

And I could see,

Oh, the way that gravity pulls on you and me,

On you and me,

And then I looked at the sun,

And saw the sky,

And the way that gravity pushes on everyone

On everyone

On everyone

Ending: C/G - Am - Em - Fsus with vocal melody until fade

If you listen to the song you'll get the rhythm.

I hope this helps you to get a handle on the song.
Enjoy.
